SUMMARY

Final-year B.Tech CSE (AI & ML) student with strong DSA and backend fundamentals (340+ LeetCode problems). Built and deployed REST API-based applications using Python, FastAPI, Flask, Node.js and MySQL. Seeking a Software Engineering Internship (Jan–Jun 2027) to build scalable e-commerce systems.

EDUCATION

B.Tech, Computer Science & Engineering (AI & ML)

Expected 2027

Noida Institute of Engineering and Technology, Greater Noida | CGPA: 7.69

PROBLEM SOLVING

- Solved **340+ problems on LeetCode** (287 in C++, 58 in SQL) covering Arrays, Strings, Hash Tables, Dynamic Programming, Divide & Conquer and Monotonic Stack.
- Earned LeetCode **50 Days** and **100 Days Badge 2026** and the Jan LeetCode Challenge badge for consistent daily practice.

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, C, SQL

Backend: FastAPI, Flask, Node.js, Express.js, REST API Design, CORS

Databases: MySQL, MongoDB

Core CS: Data Structures & Algorithms, OOP, Operating Systems, Computer Networks, DBMS

AI/ML: NLP, Deep Learning, TensorFlow

Tools: Git, GitHub, Linux/Unix, VS Code, Vercel

PROJECTS

AI Career & Placement Platform | Python, FastAPI, MySQL, AI/ML | [GitHub](#)

- Built a FastAPI backend with REST APIs that analyze student resumes, shortlist candidates and match them against job requirements.
- Implemented skill-gap identification and technical/interview performance evaluation to generate personalized preparation roadmaps.
- Used MySQL for structured storage and retrieval of candidate data and analysis results.

QR-ify | Node.js, Express, JavaScript | [Live](#) | [GitHub](#)

- Built and deployed a full-stack QR code generator and decoder on Vercel, exposing public REST APIs for encode and decode operations.
- Configured CORS and frontend–backend communication; diagnosed and fixed issues in the live production environment.

Plant Care Reminder Application | Flask, MySQL

- Developed a Flask web app to manage plant care schedules with full CRUD operations.
- Designed the relational MySQL schema and implemented backend scheduling logic for care reminders.

CERTIFICATIONS

Infosys Springboard: Deep Learning for Developers; Building ML Systems with TensorFlow; OOP using Python; Unix & Linux OS Fundamentals. **Cisco Networking Academy:** Networking Essentials; Introduction to Cybersecurity.
